RESIDENTIAL COURSE

Every year thousands of students from West Bengal travel to Kota (Rajasthan) to prepare for JEE/NEET examinations. Climate, language, and food habits are the three major problems that students face while staying in KOTA. Realizing this, Career & Courses has come up with a residential model for JEE/NEET preparations which is the first of its kind in West Bengal, where the highly experienced top notch faculties across the country are associated, to coach the students for the foundation of JEE/NEET and Board examinations. The research based study materials and the easy way learning methodologies will be extremely effective for the students, for the development of foundation for the competitive exams. Every moment the students remain under the supervision of faculty members, course coordinators and hostel wardens for monitoring their academic development. The periodic performance of the students are analysed in a scientific way and accordingly the students are guided for their better development.

The students get plenty of time for their doubt clearing & self-study, since in the residential format they are allowed to stay very close to the academic centre. Facilities of group studies are also provided for developing the better clarity of the concepts of the subjects.

KEY FEATURES

15+ Years of
experienced
teachers from Kota

Unlimited Doubt
Clearing Sessions

OMR Based
Phase Tests

Detailed Study
materials

Daily Meditation
Sessions

Separate Hostel
Facility For
Boys & Girls
