Hon. Mr. Vinayakrao Bhongale (Founder & President)

As a nation, we have a youth power that has impeccable capabilities.

This ever-enthusiastic force can lead our country to greater heights. The appropriate guidance is necessary to empower these youth and cultivate new perspectives inside them.

We aim to experiment with educational methods that bring holistic change to students.

We are bridging the gap between our age-old cultural wisdom and modern scientific knowledge. This unique blend fosters holistic development among the students. Our aim is not only to create professionals but also to build visionary entrepreneurs.
