

UNLOCK YOUR POTENTIAL

AT
ITM GLOBAL SCHOOL
GWALIOR, M.P. INDIA

About us

ITM Global School, Gwalior, is established and managed by the SLS Trust, a non-profit organization which also runs and manages ITM University Gwalior, ITM Group of Institutions, Gwalior, ITM Universe, Vadodara, Gujarat and is diversifying into various activities for the greater good of humankind.

The Management Team has over 28 years of experience in setting up and successfully managing Knowledge Enterprises. They have also been involved in public policies and implementation domain for more than 40 years.

The Trustees have an unblemished and proven track-record for high performance and quality, based on integrity, honesty, dedication and commitment.

The Management Team established ITM Global School, Gwalior after a great deal of thought churning, in-depth discussions with stakeholders and future planning. This school is one of their most cherished dreams and with its evolution, in the year 2014. The link from PG to PG (Play Group to Post

Graduation) has been established within the ITM fraternity of Gwalior and Gujarat.

The team is ably supported by a Board of Governors and Advisors consisting of eminent personalities from diverse backgrounds - Professionals, Finance Planners, Researchers, Educationists, Public Administrators, Motivators, Social Scientists, Teachers of Eminence, Poets, Artists and Sportspersons.

Since its inception in 2014, ITM Global School has been awarded 3 years in a row for 'Excellence in Education' by the Ministry of Human Resources, GOI. Being a Cambridge school, it is working towards establishing important links with the International Schools (in India and abroad), British Council and International Organizations like CIS and NESAC in order to provide International exposure to its students and faculty members. With its recent affiliation to CBSE, the school now offers the CBSE curriculum from classes I to XII.

Establishing ITM Global School, Gwalior is the most exciting, challenging and emotionally rewarding experience. And its not onetime, we get it everyday. Interaction with growing kids takes one to his/her own nostalgic journey of learning, apart from the inspirations one receives regarding basic but forgotten human values of simplicity, truthfulness, purity of innocence and behaviour. Seeing happy children engrossed in their learning processes makes me satisfied.

Perhaps we will be able to do our bit to humankind if we keep our firm resolve to give the best of environment for learning and growth to the young generation and evolve them as fine global citizens free from subjective biases and prejudices.

Ramashankar Singh
Chairman, SLS Trust

Education is commonly confused with the acquisition of skill-sets. A healthy society should know the difference between the two. The same technical knowledge and skills go into making an atom bomb that go into producing atomic energy. The choices of an individual depend on his or her education, not on the knowledge and skills themselves. And what shapes individuals? Values; ethics; critical thinking. They shape the individual's mind, character and attitude. That's how the individual develops the ability to use the knowledge and skills for the appropriate purpose. Maths, science and other subjects alone cannot teach the children the purpose of education. By themselves, they do not inculcate critical thinking and self-learning.

Most school programmes gear their pedagogy and teaching-learning methods on improving skills. That's why students feel so extraordinarily pressured to score high marks in tests but many don't learn to use those skills for the greater good of society.

We do provide useful skill-sets. We also train our students to think for themselves.

The ITM Global school has created not only teaching-learning methods but also its pedagogy for nurturing critical thinking on instilling values and ethics suited to a globalizing world while remaining rooted to the best of our civilizational ethos.

Ruchi Singh Chauhan
Chairperson, ITM Global School, Gwalior

Education today involves infusing children with knowledge, skills and mindset that will be as relevant today, as in the distant future. It encompasses preparing in body, mind and spirit to handle life-situations that stretch from the domain of the known to the realm of the unknown. The young impressionistic minds should be illuminated with such ideas, facts and issues that they grow up to be perceptive, compassionate and inquisitive human beings.

At ITM Global School, our constant endeavour is to expose our students to the globalized world, while inseminating in them a fond bonding with the local culture. The world-class infrastructure of the School, compounded with the image of the institution as one that delivers the best in education, helps in leveraging the growth potential of every child who passes through the hallowed portals of the School.

It is an absolute pleasure to be associated with and a great honour to head the ITM Global School – a school that plays the role of igniting young minds, and in moulding its pupils to become sensitive and caring human beings. I, therefore, look forward to the School scaling new heights and creating a niche for itself, on the very basis of the distinguished and fulfilling achievements of each of its students.

Dr. Sujash Bhattacharya
Principal

Leadership

Board of Advisors

The Differentiators

- New teaching methodology involving the best practices and innovations derived from established systems like CIE (Cambridge International Education) and IB (International Baccalaureate).
- Only School in the Gwalior Chambal region offering Cambridge programmes (an International curriculum) from Pre- primary to Grade XII.
- Produced best academic results in the board classes of Cambridge & CBSE.
- Day boarding/Boarding facilities for Boys & Girls.
- Wide range of subject choices available for students in the higher classes.
- Specially trained faculty to meet the challenges of Global Learning Standards.
- Exclusive infrastructure within one of the largest school campuses in the region.
- Large Indoor and outdoor sports facilities within the campus.
- Well equipped labs, performing art studios, infirmary, language labs etc.
- Interactive and Smart Classrooms; Activity-based learning.
- Fully Air-conditioned campus and transportation facilities.
- Campus is 24X7 under surveillance camera.
- Camera & GPS enabled AC buses.
- Clean hygienic and pollution free environment.
- Provision of nutritious snacks for the students.
- Zero tolerance to harsh behavior towards children.
- NCC for junior & senior division for Boys & Girls.
- Option of completing Higher Education from ITM University Gwalior, under the aegis of the ITM Universe Education.

Global Exposure

ITM Global School also facilitates exchange programmes, global partnerships and international trip, giving students the chance to immerse themselves in diverse cultures and learning environments.

Student participated at **National University of Singapore** for an internship programme.

Education Programmes

Cambridge International Education (CIE) Aff. No. IN970

Cambridge Pathway	Typical duration	Typical age range
Cambridge Early Years		
It gives young learners the best start in life, helping them to meet key early milestones and thrive in and outside of school.	Three years	3-5 years*
Cambridge Primary		
Students develop skills and understanding in 10 subjects including English, mathematics and science. Progression tests help teachers check their progress.	Five years	6-11 years*
Cambridge Lower Secondary		
Students develop skills and understanding in 10 subjects including English, mathematics and science. Progression tests help teachers check their progress.	Three years	11-14 years*
Cambridge IGCSE		
Students build a broad learning programme from a range of over 70 subjects. In each subject, they work towards Cambridge IGCSE, the world's most popular international qualification, for 14 to 16 year olds.	Two years	14-16 years*
Cambridge International AS & A Level		
Students develop the deep understanding and thinking skills they need for university. They work towards Cambridge International AS & A Level qualifications giving them the choice to specialise, or study from a range of 50 diverse subjects.	Two years	16-19 years*

Central Board of Secondary Education (CBSE) Aff. No. 1030971

The school is offering CBSE curriculum parallel to the International Curriculum thus catered to the flood of requests from the parents.

CBSE IX – X

The subjects offered are:

1. English
2. Hindi
3. Mathematics
4. EVS (grades I and II only)
5. Science (Physics, Chemistry and Biology)
6. Social Studies (Civics, History and Geography)
7. Art
8. IT (Information Technology)
9. Sanskrit (Grade VI onwards)
10. French
11. Moral Education (till grade VIII)
12. Economics (Grade IX onwards)
13. Artificial Intelligence (Grade IX onwards)
14. Home Science (Grade IX onwards)

CBSE XI – XII

The subjects offered are:

English, Hindi, Sanskrit, French, History, Political Science, Geography, Economics, Psychology, Sociology, Mathematics, Physics, Chemistry, Biology, Physical Education, Painting, Business Astudies, Accountancy, Home Science, Computer Science, Legal Studies, Information Technology, Banking, Marketing, Library And Information Science, Yoga, National Cadet Corps (Ncc)

The CBSE curriculum thus provides an alternative for parents who want their children to work along the lines of NCERT and continue their further studies only in India. The pattern of study is based on recent pedagogical developments ensuring building of concepts rather than only memorisation.

Infrastructure

Welcome to our school, where learning is supported by state-of-the-art infrastructure designed to inspire, engage, and empower students. Our campus provides a safe, inclusive, and modern environment, equipped with cutting-edge facilities to meet the diverse needs of every learner. From well-ventilated classrooms and advanced laboratories to spacious libraries and vibrant recreational areas, every space is thoughtfully created to foster academic excellence and holistic development. Join us in exploring a world-class learning environment that nurtures curiosity, creativity, and collaboration.
