

A Green campus...

*Around here, we don't look
backwards for very long...
We keep moving forward,
opening up new doors and
doing new things because
we love to learn, to light
and to lead...*

FROM THE CHAIRMAN'S DESK

"Education is not preparation for life; education is life itself."

Our endeavor is to arm our students with life-skills to face the real world, to fly off to the heights like a butterfly from its cocoon. No doubt, our students will reach the zenith, as we plan them a future not as an employee somewhere, but as an employer to many.

With a unique style, **our focus is to nurture our students as Self- motivated, independent, confident and primary as humans**, with love and care at the core of the heart. The family ambience that suspends in the atmosphere itself will give you an idea how each child is groomed to a perfect human being with individual care and support.

The feeling of home away from home will make you forget Stella Maris as a mere boarding school. With lot many loving faces

around them, the students consider us as their second home. We make them excel not only in academics, but also in courtesy, discipline, personality and social responsibility, the mantras to a successful future.

Together with excellent teachers, supporting staffs and parents, **We believe not in a uniform academic excellence, but in individual talent grooming.** That is, apart from scholars, we mould entrepreneurs, artists etc. Depending on your child's inborn tastes the stress free learning environment encourages creativity and critical thinking, making Stella Maris the best host for your children's education. **We love to give you the best.**

Dennis Joseph

*“A great place to learn
and grow listening to
the invincible
poetry of nature”*

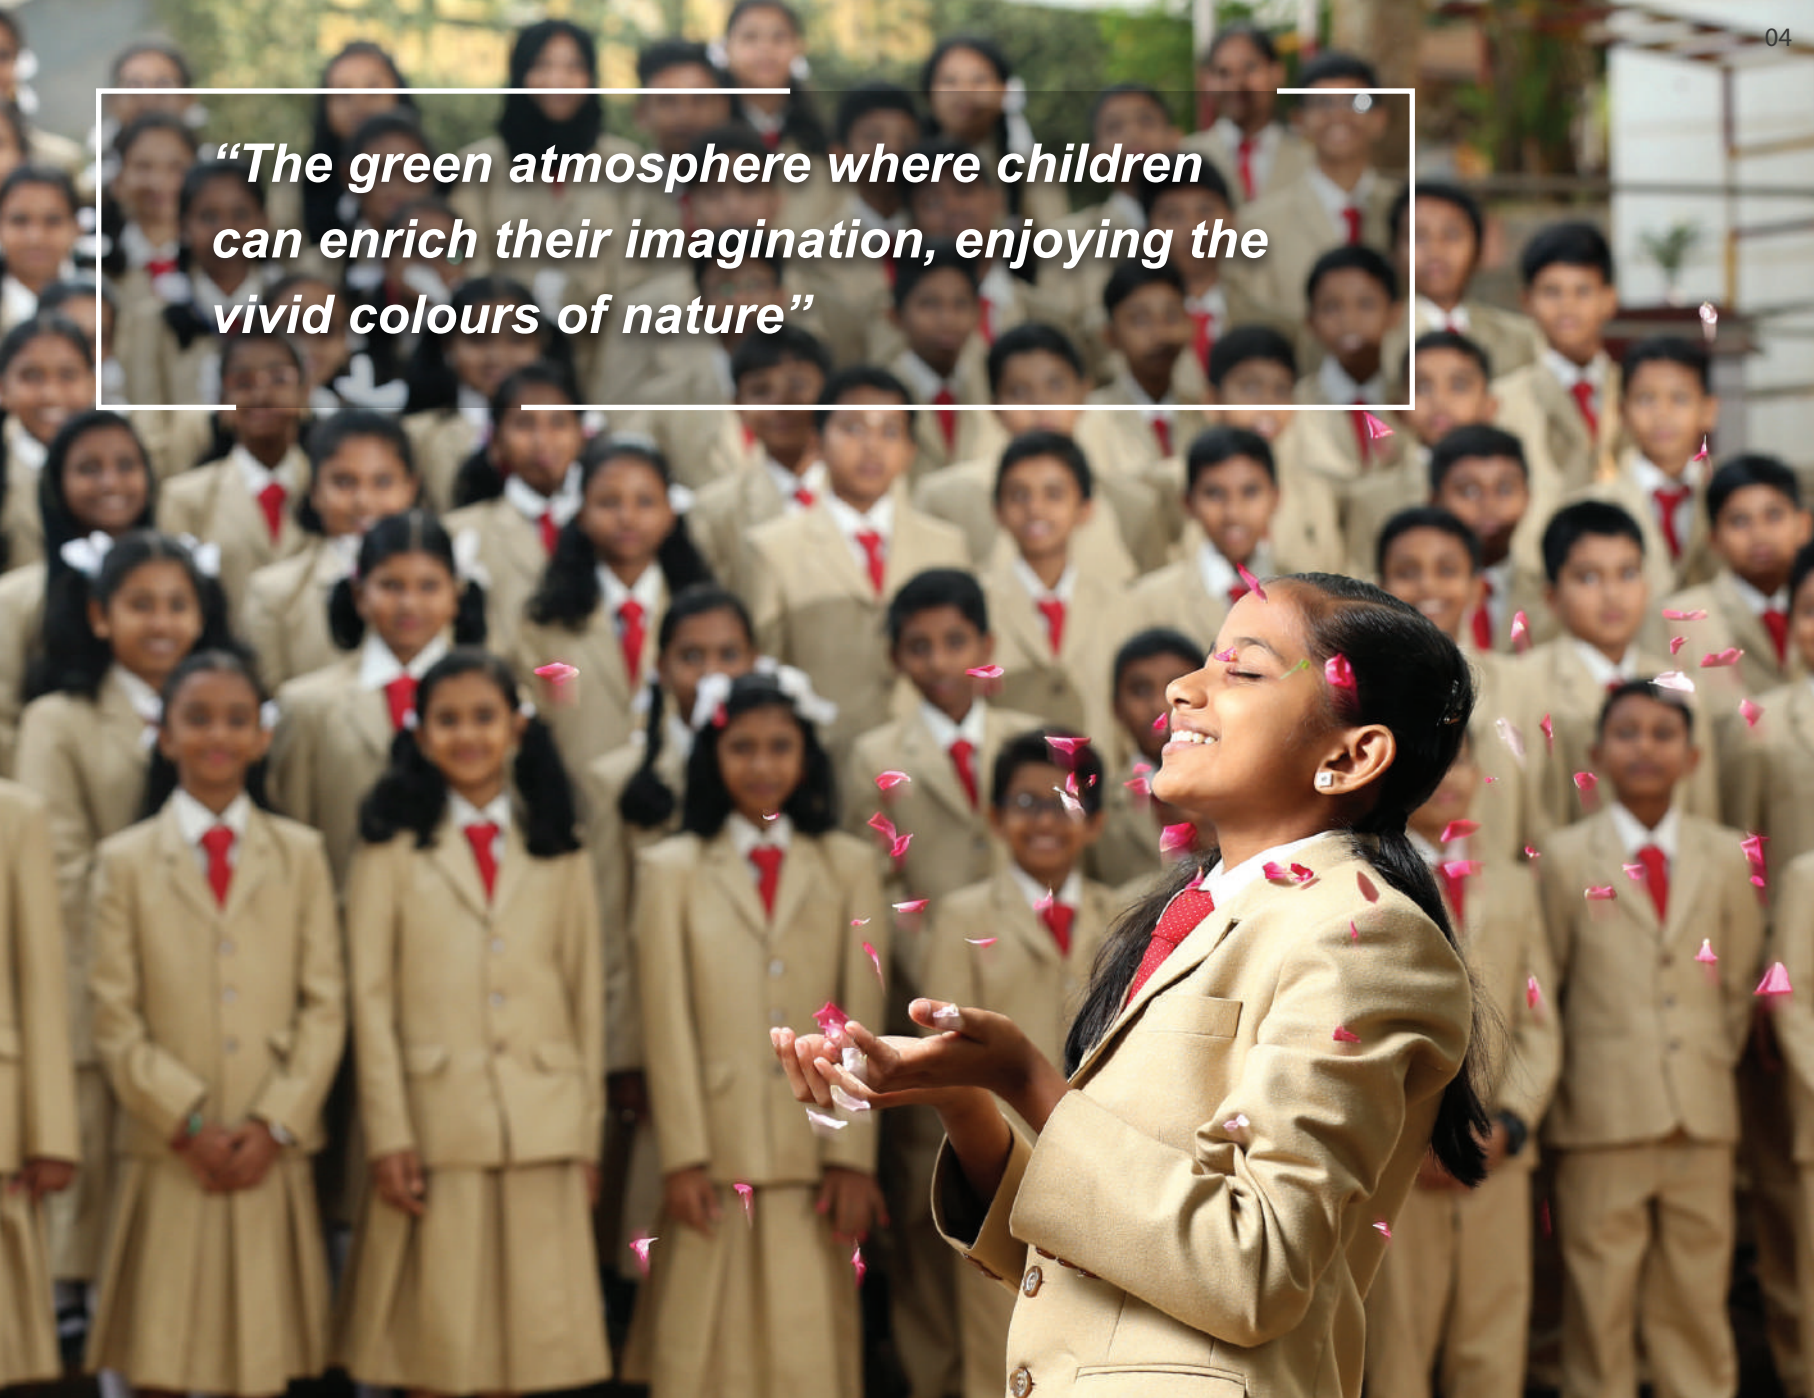

OUR EDUCATION

Creating another face in the crowd isn't our style. But we aim to nurture each student resolved to make the nation proud of them. There **we provide genuine and holistic education** in a stress free environment where students are inculcated with a spirit of enquiry and enthusiasm.

We love to develop the unique talent in each student and that is why we have a space even for back benchers. We like to recall and follow the stories of eminent innovators and scientists, including that of Einstein, Steve Jobs and Birla, who were failures in academics, but achievers in life. **We aim to bring out the most efficient face of a child**, be it as an entrepreneur or anything else.

We don't believe in following a conventional education system, rather **we prefer to take the road less chosen**, but in complete adherence to actual teaching and educational methods.

“The green atmosphere where children can enrich their imagination, enjoying the vivid colours of nature”

ECO-FRIENDLY CAMPUS

Our Campus **peaceful with lush vegetation** and yet stimulating with unique, purpose built facilities, provides the environment for both our educators and our students to have a profoundly positive impact on the lives of each other. The campus that is designed by an eminent architect imparts a pleasant feel too.

“No doubt SMBS is a different institution where your child can expect every care than you expect to provide them”

OUR HIGHLIGHTS

- *Education in Stella Maris is through participation and interaction, making it much alive and meaningful. With teachers as an abode of knowledge and wisdom, imparting knowledge here becomes an art.*
- *Year round training programmes including skating, music and instrumental music, dance, Tae-Kwon-Do, personality development programmes, counselling, motivational and mind mastering coachings contribute to the multifaceted development of the child.*
- *We provide remedial coachings to those students who need an extra push to reach the forefront in academics.*
- *Entirely furnished hostel with a separate bed and wardrobe has made available for each inmate. The hostel life is structured so as to nurture self-reliance , tolerance, confidence and harmony among the students.*
- *Consider Stella Maris as a home away from home with the school management and teachers residing in the same campus. Children are safe and secure in their presence.*

HOSTEL FOR BOYS & GIRLS

- We are living in a world where every individual parent is seeking for a stress free healthy and peaceful atmosphere for the better education of their children. If that is genuine, please don't hesitate to think of us that our boarding house will be yours with all the modern amenities. We assure you that your boys and girls will be separately taken care of as you expect.
- We provides extra coaching for slow learners under the guidance of expert tutors during morning and evening.
- We acts as a second home for all the students and we serves tasty and organic food in our canteen. As our management and teachers are residing in the campus, we provides a gurukula system of education.

ABOUT THE SCHOOL

Stella Maris Boarding School provides premium education with CBSE curriculum and with an Innovative vision in the field of education and personal excellence, we encourage students to embrace the challenges and to learn from failures, making them to climb the stepping stones of success. Small but robust class sizes, year around enrichment programmes & international education to support academic excellence add all points to the reason why Stella Maris is the best. Active, current, hygienic, green and secure amenities add on to the quality.

OUR MISSION

We always stand to provide the best quality education so as to be an international school in every aspect, moulding global citizens capable of leading a successful life around the world.

OUR VISION

We look forward to mould a promising generation with multi-faceted talents and integrity, resulting in an overall development of the public.

OUR PHILOSOPHY

You and I are different and so is our talents. Expecting a child to be like another one is burdensome, instead we look for the uniqueness of each child.
