From the Desk of Managing Director

Education is simply the Soul of a Society as it passes from one generation to another and value based systematic knowledge needs to be utilized for all round development of the human personality that takes into account the spiritual, moral and social aspects while keeping the view the traditions, culture, Value of life and philosophy of nation. New and emerging technologies have changed the whole scenario. I understand the importance of technology in today's fast paced world. I believe in exposing children to cutting edge technology so that they are equipped to not just face the challenges of the modern day living but become man of high standard.

“According to me, Education should be that which make the children self reliant and Independent individuals who have the courage to make their own path rather than going astray.

Principal's Message:

Welcome to Dev Rishi Sr. Sec. School

I am honoured and feel glad to be the part of such a renowned institution. Being a Principal, I feel fortunate that I have a good team of teachers who work together for improving the basic personality of a student.

We are marching ahead with staunch principles to dispel illusions, ignorance and promoting acquisition of knowledge among students. The school promises to provide a very enchanting environment for children to learn, grow and spread their wings. We are committed to work collaboratively with parents to nurture an individual who possess love for nation, society, community and family will encourage students to persevere in face of challenges and adopt 'never give up' spirit.

We give a lot of importance to make discipline a core value, encourage students to develop a sense of responsibility through a well planned academic schedule. House system, competitions and sport activities. We also encourage students to be a helping hand to the family members at home.

We strongly believe in developing moral values and a good character in students.

Finally, I assure you that the Management and our team of experienced teachers are doing their best to give your child the required edge to make his/her mark in this global world.

I want to conclude my words with the quotation- "One of the very important characteristics of a student is to question let the students ask questions."

Coordinator's Message

Dear Parents/Caregivers,

“Focus on the journey, not the destination

Joy is found not in finishing an activity, but in doing it.”

Today the role of a school is not only to pursue academic excellence but also to empower students to be life long learners by touching their minds to shape their future. An endeavour we remain committed to.

Keeping in mind that the children look upon us as pace setters, we nurture – spirit, soul and body. The spirit is the engine with a conscience, the soul harbours intellect, emotion and will and all are housed in a physical body.

Together everyone achieves more! We draw from the synergy that arises from working together to achieve all our goals as a team !
