Where
VALUES make you
STRONGER

“ Education is not merely about spreading knowledge about the things known to the mankind. It is about shaping a mind that is inquisitive, a heart that is kind, a soul that has values, a body that is healthy, eyes that can look into the future, intellect that inspires, voice that appreciates, actions that command, energy that dreams and thoughts that execute. Education is about preparing little souls for this WORLD. ”

Dilip Modi (Chairman, Jhunjhunu Academy)
Eminent Educationist
awarded with three national awards for
excellence in the field of education
